

LIBRARY AND LABORATORIES

Library and Laboratories are the backbone of every school. The school has a computerised library with a wide range of reading material. Each student is encouraged to use the books, internet resources for their academic projects. There are well equipped laboratories for Physics, Chemistry, Biology and Mathematics with ultra modern facilities. Computer Laboratory facilities are provided to all students starting from Grade I scholars.

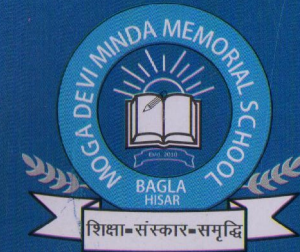

CO-CURRICULAR ACTIVITIES

There is a dedicated teacher for conducting Art & Craft activities to develop children and nurture their creative and aesthetic skills. Similarly, music and dance teachers hone the latent talent of students in the field of music and dance.

AMENITIES

The school has a fleet of buses for smooth commuting of students and all safety measures are taken to ensure a meaningful learning session at school. The school also has a Cafeteria that provides wholesome and nourishing snacks to children and staff members. Clean drinking water is provided to all as it is regulated through a centralised R.O. System. There is a 60 KV generator to provide uninterrupted supply of power to each classroom. The school is under the CCTV surveillance at all its entrances and exit points. Moreover, an elevator is installed for the needy person.

“FAITH AND FOLLOW, ACT AND ACHIEVE, SERVE AND SMILE”

Founder

Shri S.L. Minda (1930-2010)

Shri S. L. Minda was a leading industrialist and a renowned philanthropist. In 1987, he founded the Moga Devi Minda Charitable Trust (MDMCT). In 2010, he established Moga Devi Minda Memorial School at Bagla (Hisar), Haryana – a premier English medium co-education School.

VISION

To offer value based sensible and contemporary education of global standards to children to develop their all round personality and character to lead meaningful and successful lives.

MISION

To offer excellence in education by implementing international standards that will make students globally competitive, innovative and endow them with leadership qualities.

To create a value-based and well-balanced learning environment that can help in the overall development of students and enable them to inculcate and display sound values of citizenship and character.

Ensure that students are able to reach an acceptable level of competence that will help them to become successful in whatever professions they choose.

TEACHING METHODOLOGY

The teaching methodology adopted at MDMMS is based on CCE system of the CBSE that is interactive, child-centred and activity based.

Following are the highlights related to our teaching strategy at MDMMS:

1. Teacher students' ratio is 1:20
2. Each student is treated as an individual
3. Students undertake activity-based learning and experiential learning
4. Students profile is maintained, highlighting their achievement in scholastic and non-scholastic areas
5. Teachers are highly experienced and aligned to impart value-based teaching
6. Parents become partners in child's education.

ACADEMICS

The integrated academic activity at MDMMS is broadly classified in three wings:

MINDA ORKIDS - KINDERGARTEN

Minda Orkids is the pre-primary wing of school that promotes a child's natural ability to explore and learn. The children actively construct their own knowledge of language, environmental studies and number activities on the basis of materials and activities presented to them. Focusing on holistic development of children, a lot of emphasis is given to creative arts and physical education through music, dance, art and craft. In fact Minda Orkids is extremely cosy and welcoming.

PRIMARY WING

The primary learners are exposed to vibrant process of learning which promotes and develops creative thinking and rational understanding. The students are engaged in constructive activities which stimulate them intellectually. Students are taught English, Hindi, Maths, EVS, Computer Science, General Knowledge, Art & Craft, Music and Moral Science. The grade V learners are also introduced to a Third Language.

SECONDARY WING

Secondary curriculum follows the CCE system. The learners are provided an enabling environment that

facilitates freedom to think and reflect upon their existing understanding and perceptions. The students are provided with a variety of experiences which help develop their personality and bring them closer to the world outside.

SMART CLASS

Modern teaching technology is integrated into every day learning process of a student through interactive white boards and smart boards. Students seamlessly interact with their lesson content while teachers bring in a range of resources into their teaching process to make the classroom a forum of sharing, learning and enhancing analytical skills.

HOUSE SYSTEM

To provide adequate pastoral care to the students the school has adopted House System.

Students from grade I – XII are divided into four houses namely Blue, Green, Red and Yellow.

A House Captain aided by the Cabinet consists of Vice Captains and Prefects under the guidance of a House Mistress / Master to carry out a variety of Inter House activities and competitions.

YOGA, SPORTS & GAMES

Our students have participated in a number of sports activities at state, national and international level and have earned laurels for the school. Yoga and meditation are integrated as a routine in the lives of our students. Soon after Morning Prayer students spend 10 minutes in meditation. There is ample space for all major indoor and outdoor games including Athletics, Basketball, Badminton, Volleyball, Cricket, Kho-Kho, Football, Skating, Taekwondo, Boxing, Wushu, Table Tennis, Chess, Carom etc. along with specialised coaching.
